

We are dedicated to social responsibility and making a better life for our community, our employees, and our guests. We recognize the use of chemicals is toxic to health and have taken extra effort to use only organic, chemical free laundry detergent for our linens. We have replaced our light bulbs to more energy efficient, environmentally sound lighting. AND, we have recycled a 100 year old building into a gathering place for locals and visitors alike-what could be greener than that?

The Napa River Inn is proud to give back to the community and sponsors many local and National non-profit organizations including:

2005 Restore America: HHA
