

Innovators in Grape Seed body Products

Every product and treatment here at The Spa at Napa River Inn has been hand selected by Spa Manager, Jeanette O’Gallagher, and designed to please the senses.

In 1996, Jeannette O’Gallagher found a way to break into the grape seed and release its glory. She was the first person in North America to unlock the health and beauty benefits of grape seed oil through a unique milling process.

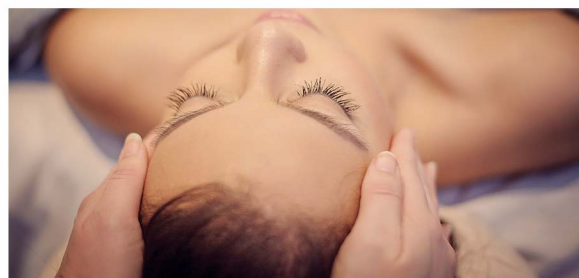

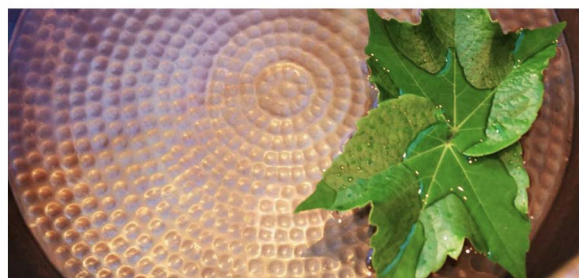

Jeanette has led the domestic industry in the development of these products. Her company, NV Organics, is steeped in the grape seed tradition. Nowhere else will you find grape seeds being used in such creative ways.

The Spa at Napa River Inn is pleased to offer this—and other—organic, wild-harvested, locally inspired hand-milled collections. You will find these unique products in the guest rooms at the Napa River Inn.
